

# AfricaBridge Consulting (ABC) Group

Capability Statement | Real Estate, Technology, and Agriculture Advisory

---

## Company Overview

AfricaBridge Consulting (ABC) Group is a startup-stage cross-border advisory firm based in Houston, Texas, focused on connecting North American capital, companies, and institutions with East African opportunities in Real Estate, Technology, and Agriculture. ABC emphasizes transparent methodology, sector focus, research-driven advisory, and practical execution support.

## Startup Transparency

ABC is a new consulting business. This capability statement does not claim legacy clients, completed engagements, fabricated testimonials, or unverifiable outcomes. It presents the firm's focus, capabilities, methods, and intended advisory services.

## Core Competencies

**Real Estate:** Market studies, site and location screening, feasibility support, developer diligence, documentation risk checklists, and diaspora property advisory.

**Technology:** AI strategy, digital transformation, automation, fintech, PropTech, AgTech market entry, data systems, and risk intelligence roadmaps.

**Agriculture:** Agribusiness feasibility, value-chain mapping, agro-processing, cold-chain opportunity review, buyer research, and market-linkage support.

## Representative Engagement Frameworks

**Real Estate Opportunity Assessment:** Evaluate city, neighborhood, project type, developer credibility, demand signals, document risk, and next-step roadmap.

**Technology Market Entry Roadmap:** Assess opportunities for software, AI, fintech, automation, digital services, and sector-specific platforms in target markets.

**Agricultural Value Chain Study:** Map production, processing, storage, logistics, buyers, export readiness, and value-added investment potential.

## Geographic Coverage

United States, Canada, Kenya, Rwanda, Uganda, Tanzania, Ethiopia, and the broader East Africa / Horn corridor.

## Differentiators

- Cross-continental North America-East Africa perspective
- Technology-enabled research and AI-assisted analysis
- Focused specialization in Real Estate, Technology, and Agriculture
- Founder-led boutique advisory model
- Practical implementation orientation, not strategy-only positioning
